Rate Validation Tool

New/Mod New	Requested By	Incident No.	DEVOPS No.
-----------------------	---------------------	---------------------	-------------------

This release includes:

- › Upgrade to Feature 5.0

NOTE: This feature requires configuration. Reach out to FNFRatesTeam@softprocorp.com for a demo/configuration.

The ability to compare the escrow/ancillary supported charges from Rate Services to the charges being collected in the SoftPro order.

- › The **Comparison View** now includes a new tab, **Additional Title Charges**, which includes the escrow/ancillary supported charges from Rate Services. This tab is always visible but is only accessible when Feature 5.0 is enabled. Navigation between the **Title Premiums** and **Additional Title Charges** tabs is always available when applicable charges are being compared.

- › If escrow/ancillary supported charges,
 - Align with charges from Rate Services – the **Comparison View** tab continues to open on the **Title Premiums** tab.
 - Does not align with charges from Rate Services – the **Comparison View** tab opens on the **Title Premiums** tab with a **Pull** button (upper right) indicating which premium/charges do not match.

- **Pull Title & ATC Rates** - Title and Escrow/ancillary charges do not match
- **Pull Title Rates** - Only Title premiums do not match
- **Pull ATC Rates** - Only Escrow/ancillary charges do not match

Rate Validation Tool

New/Mod New	Requested By	Incident No.	DEVOPS No.
-----------------------	---------------------	---------------------	-------------------

- » Overwrite rates in Select order

Clicking the **Pull** button, updates the SoftPro order by pulling in the corresponding rate(s) from Rate Services and quiets the utility if the order is in a re-verification state.

If you choose not to overwrite the Select rates, the **Verify Rates** button is still available to keep the rates and provide a justification.

- » Skipping Correction

The **Additional Title Premiums** tab allows the user to skip overwriting individual charges that do not match when using the **Pull** button.

Check the applicable entry to avoid overwriting the charge(s) in Select.
